TANGO OF THE PRESENT

CUERO is a contemporary tango quartet formed in Buenos Aires in 2022. Through original compositions, the group approaches tango as a living language: rooted in tradition, but focused on the tensions, rhythms and contradictions of the present. Its unusual instrumentation - bandoneon, piano, cello and electric guitar - brings chamber-music depth and an urban edge to the genre, creating a sound that is unmistakably Argentine and distinctly contemporary.

THREE YEARS ON THE ROAD

After three consecutive European tours, CUERO returns in **2027** with a new creative game: taking original quartet pieces and opening them to **violin, viola and double bass**, inviting musicians from the places visited to rehearse, interpret and reshape the music together. Rather than fixing a single expanded lineup, each encounter can leave a different local imprint on the same repertoire - turning the route itself into part of the creative process.

Each collaboration can reshape the same repertoire from a different local perspective. Alongside concerts, the tour can include tango clinics focused on rhythm, phrasing, ensemble language and contemporary approaches to the genre.
